

# MAKE YOUR OWN 14X22" CAMPAIGN PLACARD

## Instructions:

1. Chose your window sign and download the file.
2. Print out pages 3-8 of the sign in color on single-sided sheets of paper.
3. Cut away the blank border on each page so that you can line up the tiles seamlessly. Scissors work fine for this, but a guillotine paper cutter is highly recommended.
4. Assemble your tiles. There is a 1/2 inch overlap on each sheet, so you will need to overlap each page. Take your time and be patient while lining up the tiles. Eventually you'll end up with a sweet-looking poster that you made with just regular sheets of copier paper.
5. Tape together the tiles on the backside of the paper. It's up to you on how you want to stick together the sheets, using glue, tape, sticky tack, whatever you have at home.
6. Hang up your sign and show your support for Joe.

## Supplies:

1. Printer
2. Paper
3. Scissors or A Paper Cutter
4. Tape, Glue, or Sticky Tack
